User Interface	HTML, CSS, JavaScript, Bootstrap, jQuery, AJAX, Node.js, React.js, Vanilla.js, Angular.js, Adobe Suite including Photoshop, Illustrator, XD, InDesign, Sketch.

EDUCATION

Wilmington University

Master of Science in Information Systems Management | Web Design Concertation | GPA 3.6 (December 2019)

PROFESSIONAL PROJECTS AND RESULTS

Designed a webpage for Wilmu Checkmates

Designed and developed a responsive website for the university student chess club representing layout using HTML, CSS, JavaScript, and Bootstrap. And implemented the mockup to develop a multipage responsive website that helped more than 100 students with registration, events, and tips.

Designed a game using HTML

Created a snake game as a part of my course work using HTML, which increases its size, as it eats an apple which helped me secure an A grade.

Developed an MVC Web application

Developed a web application using ASP.Net, which has models, controllers, and views as a part of my coursework, which also includes some graphics like the release of the rocket after the countdown, zoom feature of the picture.

Created a quiz using JavaScript

Created a quiz using JavaScript functions as a personal challenge to improve my JavaScript skills.
